PROFESSIONAL SUMMARY

Software Engineering Technology graduate with hands-on experience in software development and technology-based solutions. Skilled in developing web, mobile, and IoT applications across academic and industry environments. Proficient in C#, .NET, and IoT development, with a strong ability to translate requirements into practical solutions, test applications, troubleshoot issues, and contribute to software development and process improvement.

EDUCATION

Batam State Polytechnic

August 2022 - 2026

Applied Bachelor - Software Engineering Technology | GPA: 3.81

- Studied software development, software design, web and mobile application development, software testing, databases, IoT, artificial intelligence, and software project management, with hands-on experience developing web, mobile, and IoT-based applications through Project-Based Learning.
- Final Project: Design of an Internet of Things-Based Electrical Current Monitoring System for the Lamp Aging Test Process with Web and Power BI Integration in a Manufacturing Company.

WORK EXPERIENCE

PT. Excelitas Technologies Batam

Aug 2025 - Aug 2026

OTG Development Intern | Continuous Improvement

- Designed and developed 5 software and IoT projects, including web applications and IoT-based solutions, to support production operations and improve existing processes.
- Worked with engineering teams and mentors to understand requirements, solve problems, and develop solutions.
- Tested application functionality, troubleshoot issues, and implemented fixes to ensure system reliability.
- Contributed to improving existing processes by reducing manual work through software and IoT solutions.
- Developed an event management system and supported internal company events involving 3,000+ participants.

PT. SIIX Electronics Indonesia

Aug 2024 - Jan 2025

Programmer Intern | Information Technology

- Developed and supported web, desktop, and IoT applications, including a Text-to-Speech feature for Andon systems, to support engineering and production activities.
- Assisted with application development, requirement gathering, testing, and troubleshooting.
- Worked with mentors to understand requirements and develop solutions based on project needs.

SKILLS

- Technical Skills: C#, .NET, SQL, C/C++, PHP, Laravel, Dart, Flutter, HTML, CSS, JavaScript, Python.
- Tools and Database : Microsoft Visual Studio, Visual Studio Code, Arduino IDE, GitHub, Postman, Appium, Microsoft SQL Server, MySQL, Firebase.
- Soft Skills: Problem Solving, Teamwork, Adaptability, Communication.

CERTIFICATIONS

- Certificate in Fullstack Developer Associate 2026; International PBL EXPO 2025 - Appropriate Technology; PBL EXPO Polibatam 2024 - Internet Of Things Category; #HACK4ID KEPRI - POLIBATAM X LINTASARTA, 22 - 23 AGUSTUS 2023;
